To: Everglades City Water Customers
Re: Door to Door Random Sample Survey

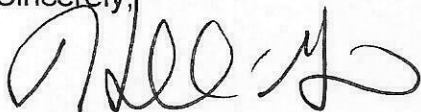

Dear Everglades City Water Customer:

The **City of Everglades City** is in the process of applying for funding from state and federal agencies for the purpose of improving our water system. As part of the funding request process, we need to document the household size and annual income of our residential water customers. Andy Easton & Associates will be conducting a door to door random sample survey to collect this information. The survey will be conducted during the first half of December 2025.

The use of state and federal funding for water system improvements helps to keep the water system financially feasible while keeping water rates low.

Your cooperation in answering the survey questions is appreciated. If you have any questions, please call our Utilities Department at 239-695-3781.

Sincerely,

Howell Grimm Jr.
Mayor
